Hi Heather,

My flight takes off at 3:35. Is that enough time? Would love to see the dunes.

Hi Erica,

What time is your flight home on Thursday? Hoping to take you over to the LAX Dunes after the GB meeting if there is time. It's a quick stop and directly en route to the airport.

Looking forward to seeing you next week!

Heather

Hi Tom,

Thanks for putting this together- definitely detailed enough for now and looks great. I'm excited to see the work TBF is doing.

Perhaps I could attend the class your teaching or meet with Karina Tuesday afternoon to talk about the work plan and Ballona.

Erica,

I can send you a better fleshed out itinerary this afternoon. Picking you up at 10:00 works great. We were going to spend Tuesday morning running up to Arroyo Sequit to look at a fish barrier removal project then hit Malibu lagoon on the way back into town.

Might meet up for lunch with folks from the southern california coastal ocean observing system. I have to teach so I'm busy 2:30-4:30. Maybe getting you on camera for CRI during that time? There is a Westchester Playa Land Use Committee meeting Tuesday Night where I'll be publicly presenting the DEIR alternatives.

That's Tuesday!

Wednesday heading down to San Pedro look at the lab and get on the boat to run out to

the Peninsula to get a sense of what that's like.

Lunch back at LMU or in LA a 1:00-2:00 with the Coastal Research Institute team LMU and TBF.

Thursday is our governing board meeting and breakout session for our members to get into the BRP.

I'll send you something more concise and easier to visualize later today.

Thanks,

Tom

Hi Tom and Heather,

I want to check in before my visit next Tuesday- Thursday.

Is there anything in particular I should prepare?

Would you be able to pick me up from the airport like last time? I arrive at 10 AM at LAX.

Looking forward to seeing you.

Best,

Erica
